ARRANGEMENTS MADE FOR THAT OF THE PEACE ENVOYS OF RUSSIA AND JAPAN.

VISIT PRESIDENT ROOSEVELT

BARON KOMURA AND MINISTER TAKAHIRA CALL ON HIM AT SAGAMORE HILL.

Washington, July 28 .- Arrangements have been completed for conveying the peace envoys of Russia and Japan from New York to Oyster Bay, where they will be received by the president, and from there to Portsmouth, N. H. retary of State Pierce, who has been ommissioned by the president to arrange for the meeting of the envoys, Acting Secretary of the Navy Darling, Rear Admiral Converse, chief of bueau of navigation, Rear Admiral Sigsbee, commanding the squadron of the North Atlantic fleet, from which vessels have been selected for the conveyance of the plenipotentiaries, and Commander C. McR. Winslow of the

According to the official announcement subsequently made the Russian plenipotentiaries and suite will embark by the department. on the cruiser Chattanooga, commanded by Commander Sharp, at the foot of Twenty-third street, New York city, at 9 a. m. on Aug. 5, the Japanese plenipotentiaries embarking at the same point on the cruiser Tacoma, commanded by Commander R. F. Nicholson, an hour later, arriving at Oyster Bay within half an hour of one another.

After the luncheon to be given by the president on the Mayflower is over and anese envoys and suit will embark on the Dolphin, commanded by Commander Gibbons, the Russian plenipotentiaries and suite remaining on the Mayflower, when they will proceed to Portsmouth, convoyed by the cruiser W. G. Cutler, which will arrive off Oyster Bay on the evening of Aug. 4. A slow run north will be made so that Portsmouth will be reached on the morning of Aug. 7, when they will be the Portsmouth navyyard, within which the negotiations for peace are to be conducted.

CALLED ON ROOSEVELT.

Japanese Envoys Paid Him an Informal Visit.

New York, July28.-Baron Komura, minister of foreign affairs, and Kogoro Takahira, the Japanese minister to America, heading the Japanese delethis city early Thursday for Oyster Bay to visit informally President Roosevelt. When they returned late in the afternoon Minister Takahira he with his colleague had met the president. The minister admitted that the approaching meeting with the Russian plenipotentiaries was mentioned in the conversation with the president, but he would not enter into details.

President Roosevelt entertained the Japanese envoys at luncheon. Subsequently he had a long interview with them at which all phases of the approaching negotiations were considered. Neither the president nor his Japanese visitors cared to discuss for publication the nature of their conference except in the most general

Minister Takahira, speaking for both Baron Komura and himself, said they had a delightful and satisfactory visit and talk with the president. Baron Komura, he said, had desired to pay his respects to President Roosevelt and on behalf of the emperor thank him for his efforts to bring about peace in the far East. This mission had been accomplished.

It is expected that soon after the arrival of M. Witte, the principal envoy of Russia, he, too, will make an allowed by it to remain uninvested on informal call on President Roosevelt in advance of the presentation to the president on Aug. 5 of the two sets of plenipotentiaries and their suites.

RUSSIANS HASTILY RETREAT.

Abandon Korean Towns Before Advance of the Japs.

London. July 28 .- The correspondent of the Taily Telegraph at Osaka, Jaran, sends the following:

"Hearing of the advance of the Japanese the Russians on Monday hastily retreated from Buryong and Fukyo in Northern Korea.'

Admitted Truth of Charges Made Against Him.

Washington, July 28 .- In a hearing Thursday at the department of agriculture at which Secretary Wilson, Assistant Secretary Hayes, Professor B. T. Galloway, chief of the bureau of plant industry; George T. Moore of that bureau and two representatives of an agricultural publication were present, the two last named made tharges that the wife of one of the scientists in the bureau of plant industry owned a block of stock in an Eastern plant manufacturing culture for soil inoculation, when the scientists were preparing and revising bulletins regarding the enrichment of farms and portraying the culture as containing virulent forms of bacteria for making poor lands rich. It was alleged that publications revised by the official tended to direct the farmers to a commercial concern supplying the material because of the exhaustion of the supply by the department.

At Thursday's hearing the scientist involved in the allegations admitted that his wife owned stock, that stock was to come to him in the event that he severed his connection with the department and became the bacteriologist of the concern, but that in the latter part of April he decided to stay with the department and the stock was no longer held in his family. It was alleged that the culture had been supplied by the department to the concern mentioned in undue quantities, the employe mentioned being charged with shipping seventeen pounds in a single day, himself prepaying expenses. It is said that Thursday he admitted this and other shipments. The charges are under investigation

Assistant Secretary Hayes is making an investigation into the whole question of the value of the culture.

The persons making the charges announce their intention of bringing the matter before the president and the department of justice.

New York, July 28 .- In the form of an amended complaint to a bill filed last April, suit was begun Thursday in the United States circuit court for the Southern New York district to received by the admiral commanding throw the entire \$421,000,000 of the assets of the Equitable Life Assurance society into the hands of receivers, who shall "take possession of all the funds, assets and property held by the defendant society of every character and description and administer the same as they may be directed by the

More than forty policyholders in the Equitable, representing a dozen different states, are included as complainants in the present suit, which is based gation to the peace negotiations, left in part upon the allegation that the society has no funds with which to meet its enormous losses, and is in-

solvent. With J. Wilcox Brown of Maryland, would make no statement beyond that the holder of a \$25,000 policy, as complainant, papers were filed last April to compel a distribution of the \$84,000,-000 surplus fund of the society, to compel the management to make an accounting to the policyholders, and for the appointment of receivers for the surplus fund, pending judicial ascertainment of the rights of the policyholders thereto.

Since the filing of that bill permission was obtained to file an amended complaint. Since the original bill was filed forty-four other policyholders have intervened in the suit.

In the amended bill, which is far more sweeping in its charges and in its appeal for relief than was the original bill of last April, there are incorporated many citations from the Frick and Hendricks reports, published some months later. The bill alleges that South. the society has been guilty of mismanagement in syndicate transactions, that "unreasonable and excessive" salaries have been paid; and that "large sums of money, ranging from \$20,000 to \$37,000,000, belonging to the said assurance funds of the society, were deposit in banks and trust companies, without adequate interest, in many of said officers and directors of the society or many of them were large stockholders for the purpose of securing pecuniary benefits to such officers and directors individually."

Criticises Taft's Visit.

St. Petersburg, July 28 .- The Viedomosti takes the occasion to direct sharp criticism at the visit of Secretary of War Taft and Miss Roosevelt to Japan and complains that the moment for the trip was tactlessly chosen. The paper adds that the efforts to prove the visit to the land of the Rising Sun is devoid of political meaning are "childlike."

The result is the appearance of cases of fever in various parts of street in neighborhoods of the poorer classes. Six hundred corner groceries and saloons in New Orleans are owned by Italians and many of these readily gave shelter to their fear-stricken comrades. Almost every instance of a new focus outside of the French market district is that of an Italian who escaped therefrom or some one of a different nationality whose business was in that district. There have been ten foci above Canal street traceable to the original one in Algiers. The Algiers case was that of an American boy, proving fatal, whose employment was in the district. Late Thursday night Hoch consented to an interview, and throughout the conversation he stoutly insisted that he was an innocent man. He was calm, in fact about the calmest man in the room at the time. When complimented on the nerve he was showing Hoch replied:

"Why should I be disturbed; I am innocent, and what is more I am manly. The whole thing is injustice and goes to show that the man without money cannot expect a fair deal, and that he might get one if he could bring money to bear. Look at that lawyer, Patrick, in New York. He has money, and see how long he has been in the courts. The law in my case has taken its course, but I think it has taken the wrong course."

When asked if he had any confession to make or whether he would reveal his identity before he died, Hoch replied: "As to confessing anything, I have nothing to confess except my bigamy, and that I have already confessed. My identity I will not reveal. I will keep that secret like a man, and it will go to the grave

THE people at Aitkin are about to have the Brainerd dam removed from the river, if a petition to congress will do it, according to a dispatch from that place to the city papers. The people set up the claim that this dam is the cause of the high water and flooding of their lands and that it does more damage than good. The people along the river who have been flooded out are to be pitied but their misery cannot be laid to the overflow of the dam here. It is also understood that the people of Aitkin are to have the government dams all removed if petitions to congress can accomplish it.

In its daily and weekly editions today THE DISPATCH publishes exclusively the complete census returns of the city and county giving each subdivision separate, and for comparison the figures of the PATCH, unless you want it after it is cop ied from the columns of this great family journal.

THE DISPATCH is in receipt of complete but unofficial figures of the results of the last census in the city and the entire county. The figures for the city as given above are 8,134 and for the county 16,653. The increase in the city is 610 or 8.1 per cent and in the county 2403 or a trifle under 17 per cent. The small increase in the city will not be a surprise to the people of the community, as the closing down of the mill last fall has resulted in a great many people moving elsewhere. It is confidently believed that if the census had been taken last year the city would have contained over 9,000 people. But the increase in the county, though very good, was hardly as large as expected, as a ride through the country shows great improvement in recent years to the observer.

A perusal of the figures shows some queer results. For instance, in the first ward there was a deccease from 1125 to 856, or a loss of 269. This loss is hard to account for as the boundaries of the ward are the same and there are just as many residence houses there now as five years ago and all are occupied. Practically all the hotel population of the city is located in this ward and this probably is not as large now as five years ago, but the reduction, if any, could not account for the big loss. A recount of this ward might show a gain and it would not be a bad idea for the Commercial Club to take the matter up and see if a recount could not be ob-

The big gains in the city were in the third and fourth wards, the latter ward gaining 348 in population and the third ward 282. The fifth ward also shows a substantial increase of 192 while the second ward gained but 75.

The census returns of Morrison county were made public Wednesday by the Transcript and a comparison with their tached from Daggett Brook since 1900. returns is very favorable to Brainerd (g) Organized from township 136-25 since 1900 and Crow Wing county. The city of Little Falls only increased 8 in population while Brainerd increased 610, and Morrison county increased only 1354 on a total population of 22, 891, while Crow Wing county increased 2,403 on a total of 14,250. This make a fine showing for Crow Wing as com pared with her neighbor on the south

In the county a substantial increase was made everywhere, although th subdivisions of the county have been changed to such an extent as to make comparison somewhat difficult, but with | (x)

TO INVESTIGATE DAMS

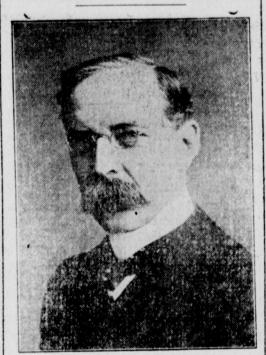

Senator Moses E. Clapp Will Visit Points In Northern Minnesota for This Purpose

Senator Moses E. Clapp will visit points in the upper Mississippi country to investigate the government reservoir

The senator stated before he left St. Paul that he would not be prepared to say what the remedy for the govern ment dam evil, if evil it is, should be until after he had investigated the matter thoroughly. He expressed himself as believing that if sufficient care had been exercised in the spring some of the present unfortunate conditions could have been avoided.

"One thing is certain," he continued, "there are thousands of men who have been induced to settle in Northern Minnesota practically at the invitation of the government, under the homestead laws, and they are entitled to consideration, not only in their property rights, but to even a greater extent than that. We should have affairs so administrated that others will come and share with the earlier settlers the burden of expense incident to the opening of highways, maintaining of schools, and, in short, the burden of development. The settler should be the first considera-

ing Doan's Kidney Pills, and many times I have been called upon to corroborate that statement in personal interviews. My confidence in Doan's Kidney Pills has not been lessened during the past six years. It has shown itself equal to all the claims made for it. I was a sufferer for a long time from backache and pains in the loins. The kidney secre

tions were too frequent and much dis

colored. The trouble became worse and

worse and nothing helped it until I got Doan's Kidney Pills at H. P. Dunn & Co.'s drug store. I used this remedy faithfully until the annoyance from the kidney secretions ceased and the pains and backache disappeared. The cure then effected has been most gratifying and altogether permanent."

Hollister's Rocky Mountain Tea. Bright lake, way up above the head waters of the Mississippi and one of the most enchanting spots in the world. It is reached by way of the Northwestern, Northern Pacific and the Minnesota & International railways, all three of these great steeled thoroughfares rivalling each other in their catering to the sportsman, the summer outer and the tourist. It is the Northwestern to Minneapolis, the Northern Pacific to Brainerd and the Minnesota & International to Glengarry and the whole north woods country. This latter line extends from Brainerd northward through Hubert, Pequot. Jenkins, Hackensack, Pine River Backus and Walker, to the way will sell tickets during the summer great lumbering depot at Bemidji, for one fare for the round trip to all thence off to the northeast to Turtle, points on the line, good going Saturday Tenstrike and Blackduck to Northome, 22tf with a branch from Hovey Junction to Bullhead lake, south of the great inland Masters, summering at Walker, Minn., sea, Red lake, where the new town of Kelliher is located on the very border of the moose and bear country. You can Call at the residence of F. C. Butts, stop at any of these points and get the best muskellunge, black bass, pike and 45t3 pickerel fishing in the whole universe. The largest of all the north wood lakes are Red, Leech, Cass and Winnibigoshish, but there are myriads of others all equally attractive to the angler, but smaller and less accessible, but all more or less connected with each other. Where portages are necessary they are generally short and easy of locomotion. It is possible to make a 500-mile canoe trip with but two carrys on the route. Aside from Brainerd, Walker, Bemidji, Blackduck and Northome, there are other stations, all of which have fine accommodations for the angler, the art-Brainerd, Minn., says: "Brainerd peo-ple have seen in the local papers the testimonial I gave in 1898, recommend-region is surpassed by no other section region is surpassed by no other section of country on the globe, and its summer resorts, especially that of Glengarry, have few equals even in the White mountains, the Adirondacks or the farfamed Aroostook region among the rocks and pines of Maine".

ABOUT FISHING

L. E. Cavalier, of St. Paul Dispatch Says Grover Cleveland is Coming West in August

Fishing is said to be good at lakes east of Pine river and Backus, also at La Porte and Bemidji, on the Minnesota & International railway, says L. E. Cavalier in the St. Paul Dispatch. Mr. caught thirty black bass, averaging three pounds, and the largest weighing five pounds, in Garfield lake last week. At Bemidji the largest string was fifteen pike, one of which weighed twelve

Kebekona camp, located on Woman lake, twenty miles northeast of Pine river, is running to its full capacity, with many on its waiting list. It is said that ex President Grover Cleveland is in communication with the manager, planning to spend some time at the camp in August. He has no doubt been attracted by the recent true stories of the good fishing there. Black bass and wall-eyed pike are numerous and easy to catch. On a new road lately opened up toward Cross lake, there are some small bodies of water, nameless as yet, in one of which two men caught 400 black bass in one day.

Fishing at Clitheral is said to be good, minnows, grub and fish worms are being used for bait.

MUSIC AND DRAMA.

In speaking of the performance, which is to be duplicated in this city tomorrow, in a matinee at 3:30 o'clock and at night, by the Orhpeum Vaudeville company the Crookston Times says:

"The bill of the Orpheum Vaudeville Co. at the opera house last evening was one of the best that has been presented this season, anywhere in the Breadbasket circuit. The program was varied and every performer was an artist in his line of work. The acrobatic novelties by the Bartelmes were excellent and Marie Dockman in her chair juggling act and graceful dancing was a hit making feature. She is one of the most refined and agile performers ever seen on a Crookston stage. Nellie Gerine is much above the average soubrette and the balance of the performers were excellent in every sketch."

Same popular prices, 35, 25 and 15. Matinee prices 25 and 10 cents.

ELECTRIC EXPRESS TRAIN COL-LIDES WITH EMPTY TRAIN ON ENGLISH ROAD.

MANY PERSONS ARE HURT

ADDS TO THE HORROR OF THE CATASTROPHE.

Liverpool, July 28.—An electric express train on the Lancashire and Yorkshire railroad, bound from Liverpool to Southport, collided Thursday evening with an empty stationary train at the Hall Road station, causing the death of twenty-three persons and the injury of many others.

The first car of the express, which was crowded, was smashed to pieces and only six of its occupants escaped. The road was recently given an electric equipment.

This is the first serious accident that has occurred on an electric railway in England and it filled with horror the numerous waiting passengers at the Hall Road station, who were spectators of the disaster. The collision lifted the first car of the express completely off the steel frame and crashed it down again on the unfortunate passengers, twenty of whom were killed outright. More of them would have been killed but for the presence of mind of a Liverpool architect who, seeing that a collision was inevitable, shouted to his fellow passengers to throw themselves upon the floor of

Almost immediately after the crash the wreckage burst into flames. The mangled bodies of the dead and the agony of the injured pinned in the burning wreckage formed a terrible scene and many women on the platform fainted. The victims included several women and children. Fortunately the number of fatally injured is comparatively small. The cause of the collision is unknown.

BOARD OF INVESTIGATION.

Appointed to Collect Evidence on Bennington Disaster.

San Diego, Cal., July 28 .- The flagship Chicago of the Pacific squadron, with Admiral Goodrich on board, arrived here about 6 o'clock p. m. Soon after the Chicago came to anchor Commander Young of the Bennington and Captain Drake of Mare Island went on board and were closeted with the admiral.

A board of investigation was appointed, whose duties will be to collect evidence of whatever nature may be considered pertinent to the disaster on the gunboat Bennington and to 'pu' this evidence in shape for the consideration of Admiral Goodrich. With the report of this board in hand the admiral will decide whether or not to appoint a board of inquiry. The report of the board is not expected to be made for several days.

DECLINES TO ANSWER.

New York Broker Refuses to Reply to Questions.

Washington, July 28 .- F. A. Peckham, a New York broker, Thursday refused to answer questions as to his dealings in agricultural products before the grand jury investigating the cotton report leakage. Mr. Peckham was thereupon told by United States District Attorney Beach that unless he (Peckham) changed his mind by Friday at 11 a. m., when the grand jury convenes, his recalcitrancy would be reported to Judge Wright of the supreme court for the District of Columbia, who already has given public notice of his intention to punish any witness refusing to reply to proper questions. The penalty is imprisonment. When questioned, Mr. Beach declined to admit the probability of proceedings against Mr. Peckham.

The Critical Periods In A Woman's Life

Are When the Change Comes From Childhood to Womanhood and Later When the Organs of the Pelvic Region Cease Their Work.

DR. A. W. CHASE'S NERVE PILLS

When the child changes from girlhood to womanhood and again later in life when the organs of the pelvic region cease their work, there is a strain thrown upon the nervous system, that requires a proper amount of additional strength | tive lambs, \$5.00@6.00. and resitive power. This Dr. A. Chase's Nerve Pills do to a certainty by their ability to supply to the nervous system and the organs affected, an amount of nerve strength and energy that enables them to accommodate themselves rapidly and easily to the changes taking place.

Mrs. Julia Rowland, of No. 264

Pearl St., Buffalo, writes: "Both myself and daughter, aged 17, are deeply indebted to Dr. A. W. Chase and his Nerve Pills. They certainly are a grand tonic to the nerves. I used them about a year ago, to give me the strength and vitality to go through the ordeal that ususally comes to woman at change of life, and found all the nervousness, crying spells and weakness disappear in a hurry. This led me to give them to my daughter about the time she began to have the endless trouble some girls do in early life, and the medicine acted equally as well with her. She grew strong and steady-the color be came good—the languor and lassitude disappeared and she was able to go about her school duties as usual. I consider the Dr. A. W. Chase Nerve Pills unequaled as a nerve and general tonic in such cases and gladly recommend them to others who suffer in a similiar manner." 50c a box at dealers or Dr. A. W. Charges Made by Examiner Vander-

Albany, N. Y., July 28 .- Concealments of judgments against the company amounting to \$182,767, exaggeration of its surplus by over \$300,000 and a fixed policy of delay are some of the charges made against the Mutual Reserve Life Insurance company by Chief Examiner Isaac Vanderpool in his report submitted to State Superintendent Hendricks and just made public by

The examination was begun last December and covers a period back to 1899. The company has headquarters in New York city and claims assets of between \$5,000,000 and \$6,000,000.

Examiner Vanderpool says that the management of the company made no mention of these judgments in the item of liabilities reported for the year
